PART I
GENERAL.

Proceedings of the Government of Mysore,

READ:—

The following letter No. 175, dated 24th August 1895, from the Deputy Commissioner Kadur District.

I have the honor to enclose a letter, dated 20th August 1895, received from Mr. W. A. Allardice, requesting permission to shoot semi-wild cattle in his estate which he states are impossible to catch and quoting certain Government orders passed on a former occasion, copies of which are now enclosed for ready reference. As these cattle are undoubtedly a source of great mischief and loss to the estate, I would beg to recommend that Mr. Allardice be given leave to shoot them after due notice of 15 days is given to the surrounding villages.

From Mr. W. A. Allardice to the Deputy Commissioner, Kadur District, Mylemane, dated 20th August 1895.

I have the honor to inform you that a stray herd of cattle has been living constantly on my estate here for the past eight months.

The herd consists of one bull, four cows, six bullocks, and three half-grown bullocks, and as the herd has been straying for such a long time, the cattle are all in a semi-wild state, and it is impossible to catch them and put them in the pound.

Such being the case, I would feel obliged if you would cause a notice to be inserted weekly in the Mysore Gazette, calling upon the owner (if there is any) to remove this herd, failing which the herd will be shot down at the end of next month.

As a precedent for making this request, I may mention that about fifteen years ago, there was a similar herd of semi-wild cattle living on this estate, and Government granted me leave to shoot the herd, after due notice had been given in the Mysore Gazette. On that occasion people came from all parts of the surrounding country to look at the cattle, but as there were no claimants, I shot the whole herd down.

I trust, therefore, you will allow a similar procedure in this case.

In the event, however, of your not seeing your way to follow the above precedent, I beg permission to harass the herd with small shot, which would have the effect of making the cattle leave this estate, though it would not kill any of them, or if this also seems inadvisable to you, I beg that the matter be referred to the Government in Bangalore with a request that orders may be issued as to what may be done in this particular case.

From W. A. Allardice, pound-keeper, Mylemane to the Amildar of Chikmagalur, dated Mylemane, 4th June 1895.

I have the honor to inform you that there is a semi-wild herd of cattle, consisting of about a dozen cows and bulls, and half a dozen calves, constantly straying in the coffee jungles of this village, and inflicting heavy loss on the owners of these jungles.

This herd does not live upon grass like other domestic herds, but lives entirely on the fruits which keep dropping from the jungle trees shading the coffee, such as the fig, mango and gundall trees. The soil and coffee trees are thereby deprived of the manure these fruits would become if they were left to rot there.

Secondly, if young plants are put down in the coffee jungles of this village to supply vacancies, the above herd will come next morning and trample them all down, or eat off the tops of the plants.

Thirdly, if the ground is dug up for the purpose of making the coffee trees grow better, and give better crops, the above herd will come and trample down the earth, and make it in a few days just as hard as it was before.

As during the last two years I have repeatedly endeavoured to surround the above herd and capture it, and have as often failed to do so, and as the loss daily suffered is no longer supportable, I write to ask if you will take some steps to free us from this herd.

As the herd does not belong to any one, I would venture to suggest that it should be shot down, one by one, and the carcase sold by auction to the butchers in Chikmagalur for the benefit of Government; or if this plan does not commend itself, I would suggest that a reward of five rupees should be offered for the capture of each head in the herd, and that the herd so captured should be put up to auction at Chikmagalur to defray the reward.

From the Deputy Commissioner, Kadur District, to the Secretary to the Chief Commissioner, General Department, No 120, dated 10th June 1880.

I have the honor, herewith to forward, in original, for the information of the Chief Commissioner a letter from Mr. W. A. Allardice to the address of the Amildar of Chikmagalur who has transferred it to me.

2. The semi-wild herd of cattle alluded to, do, I am informed, a great deal of mischief in the neighbourhood.

3. I have caused an Istihar to be published calling upon those who may claim the cattle to be their property to come forward and prevent them from straying and doing damage to the property of others as they now are reported to do. I have fixed a month's time for the purpose. But as far as my present information goes, I expect none so to come forward.

4. What should be done after the fixed time is over, is the question. Of the two plans proposed by Mr. Allardice, I think it well for the present to try that of offering a reward for the capture of the cattle. But though I think that five rupees per head which is proposed by Mr. Allardice is not too much, I would still wish with a view to avoid possible loss to Government to notify beforehand that the reward will be paid only from the proceeds of the sale of the cattle captured, and that if the proceeds be less than Rs. 5 in any case, only the amount realized actually from the sale will be paid and no more.

5. I beg to request the orders of the Chief Commissioner on the subject.

From the Secretary to the Chief Commissioner of Mysore, General Department, to the Deputy Commissioner, Kadur District, No. 1869—526, dated 18th June 1880.

His letter No. 120, dated 10th June 1880, submitting for orders a letter from Mr. Allardice, reporting on the mischief committed by a semi-wild herd of cattle in his neighbourhood.

Requests he will inform Mr. Allardice that he will be quite justified in destroying wild and ownerless cattle which cannot be caught, and which do injury to his crops.

The original enclosure is returned.

No. 4014—Mis. 646, dated, Bangalore, 8th October 1895.

Order thereon.—The Deputy Commissioner is referred to the orders issued by the late Chief Commissioner in 1880, *vide* No. 1869—526, dated 18th June 1880. Every person has undoubtedly a right to secure his property against mischief committed by semi-wild herd of cattle of the kind referred to, which it is found impossible to catch and impound. In such cases, if, after due notice, no one comes forward to remove them, the owner of the estate, on which however mischief is committed, will, as remarked by the Chief Commissioner, be perfectly justified in destroying such wild and ownerless cattle, so as to prevent further molestation and loss. The notice above referred to should be issued by the Deputy Commissioner calling upon the owner or owners to secure and remove the herd in question within one month from this date. The notice should further offer a reward from Government to persons who may succeed in securing and handing over the entire herd, at the rate of Rs. 5 for every grown up animal, and Rs. 2 per head of the others. The animals thus delivered to Government would become the property of Government, and would be disposed of, after some training, by sale or otherwise, as Government may direct. The notice should be published in all neighbouring villages as well as in the Official Gazette.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The Deputy Commissioner, Kadur District.

No. 4646-53—Mis. F. 6-90, dated, Bangalore, 25th October 1895.

Order.—Large arrears of Land Revenue and Local Cess are due on lands leased for mining purposes to various parties. Repeated demands and warnings have had only the effect of eliciting prayers for remission or the grant of further time for payment. The Government are unable to comply with such prayers. The Deputy Commissioners are accordingly requested to serve the defaulters with notices in the accompanying form duly signed by them and sealed with the seal

of their office. A period of three months should ordinarily be sufficient, but the Deputy Commissioner will in each case fix the period he considers reasonable under the circumstances. If the arrears remain unpaid within the period allowed by the Deputy Commissioner, he should proceed to forfeit the lease and resume the lands under the powers vested in him by the lease as the Civil Executive Officer and by the Land Revenue Code as the Deputy Commissioner. Every case of forfeiture and resumption should be reported to Government for its final orders, if any. If the demand made is duly complied with, the interest on the arrears may be remitted.

V. N. NARASIMMIYENGAR, *General Secretary.*

To—The Deputy Commissioners of Districts.

To

Sir,

Whereas by a Deed of Indenture executed on ..... the Government of Mysore leased to you for mining purposes the block of land called.....in the Taluk of..... ...in the District of.....in the Territories of Mysore, and whereas default has been made in the payment of the annual Land Revenue and other dues upon the said block of land, and whereas the arrears of Land Revenue and Local Cess now due thereon not taking interest into account amount to Rs.....as per details appended hereunto, I have the honor on behalf of the Government of Mysore, to request you to cause to be paid, within.....months from this date in the Treasury of ....District, or in any other Government Treasury in the Territories of Mysore, the said sum of Rs.....and to give immediate intimation of such payment to me. If the said sum or any part thereof remains unpaid after the said period of.....months from this date, the conditions of Deed of Indenture above quoted and the provisions of the law as contained in the Mysore Land Revenue Code, 1888, will be duly enforced; the said amount, with costs, will be recovered in due course of law, and the lease to you of the block of land in question will be liable to forfeiture and cancellation and the land itself liable to be absolutely and irrevocably resumed to the Government.

I request you to accept this letter as formal notice under the Deed of Indenture above quoted, and under the Land Revenue Code, 1888.

Dated.....

I have the honor to be,

READ :—

Government Proceedings, dated 12th September 1895, No. 869-98—4824-53, sanctioning the Preliminary Issue of the Budget Estimates of the Public Works Department for 1895-96.

* * * *

2. Arrangements shall be made for the future issue of the Preliminary Budget not later than the 1st May preceding the year budgetted for. It was explained by the Chief Engineer that the late preparation of the Budget, as a whole, was due to unavoidable delays in the submission of the several District Fund Budget Estimates, which hitherto had to be embodied with the Public Works Budget proper. In future, it will be sufficient to include in the Preliminary Issue merely approximate totals which will be supplied to the Public Works Department by the Local Fund Department for each District, leaving the details to be shown in the Final Budget.

* * * *

4. In the matter of the "Establishment charges" against District Fund Works, it is observed that the percentage varies considerably in the different Divisions, and therefore in some cases presses unfairly on the amounts available for works and repairs. In future, it is desirable that a uniform establishment charge of 17½ per cent of the total District Fund Works grant should be adopted for each Division. In the Final Budget these charges should be modified accordingly. The Irrigation Cess Fund should bear a similar percentage charge, in addition to the Rs. 12,000, the pay of the Tank Inspectors, debited against this head of service.

No. 4449-58—L. F. 210-92, DATED, BANGALORE, 23RD OCTOBER 1895.

ORDER THEREON.—The Government regret to notice that punctuality is not observed by the Deputy Commissioners of Districts in the submission to the Government of their annual District Fund Budgets. Not a single Budget for the year 1895-96 was submitted within the prescribed time (31st January), and some of them were received in March and April. This delayed the passing of orders thereon and the issue of the Public Works Budget, in which the District Fund Budget Estimates have to be incorporated. As under para 2 of the Proceedings read above, the Preliminary Issue of the Public Works Department Budget has to be issued not later than 1st May preceding the year budgetted for, the attention of the Deputy Commissioners of Districts is drawn to para 4 of Government Proceedings, dated 1st November 1892, No. 6098-6106—L. F. 210-92, which directs that District Fund Budgets should be submitted with complete details so as to reach the Government Office not later than 31st January of the year preceding that to which they relate.

2. The establishment charges on account of works to be executed by Public Works Department out of District Funds should be calculated at 17½ per cent on sums provided under "Original Works" and "Repairs."

General Secretary.

Proceedings of the Government of Mysore,

READ AGAIN :—

Letter, dated 12th August 1895, No. 30, from the President, City Municipal Commission, Bangalore.

With reference to Government Proceedings No. 951-2—48-92, dated 19th July last, observing that the system of collecting the market fees by amani is hardly advantageous, I have the honor to state that the Board had no other recourse but to resort to the amani system, as there was evidently a combination among the market contractors. The highest tender was Rs. 215 per month and by working under amani system the realizations during last month was Rs. 293 or Rs. 78 more than the tender. Deducting the cost of temporary establishment, *viz.* Rs. 15 per month, there is a net profit of Rs. 63. However if a fair offer is made by any contractor, the same will be farmed out as usual even before the expiration of 3 months. No regular establishment has been entertained for the purpose. In order to assist in the collection work certain officials and peons have been granted small allowance and an additional hand on Rs. 6 entertained as particularized in the margin.

Proceedings of the Government of Mysore,

READ:—

Letter No 911—805, dated 28th May 1895, from the Deputy Commissioner of the Chitaldrug District

I have the honor to suggest the desirability of modifying clause 10 of Rule XXVI (Land Revenue Rules) so as to make its provisions applicable to all cases of long possession whether *with* or *without* a document

2. Under clause 8, a registered conveyance accompanied by possession, however short its duration, entitles the applicant to obtain a transfer of registry in his name Very rightly, possession for a shorter period than twelve years does not warrant a transfer unless supported by a registered instrument. But possession for twelve years or more justifies a transfer under clause 10 which however requires that in such cases there should be "no documents of title." The condition thus superadded to this clause leads often to great hardship. If an applicant asks for a transfer on the strength of his long possession without a document, he succeeds in obtaining that relief. But if *in addition to such long possession*, he happens to hold an unregistered document, he is denied the summary enquiry and remedy provided for in clause 10. In most cases of long possession and enjoyment by virtue of an absolute title it is found that an unregistered document does exist in proof of such title I cannot quite understand why the existence of such a document should deprive an applicant of a remedy which would readily be afforded him if he holds no such document In the one case there is mere possession, while in the other there is possession plus an unregistered document The latter is stronger than the former and yet a strict interpretation of clause 10 would place it in a less advantageous position I should not have put this construction on this clause, but for the decision passed by Government in Appeal No 163 of 1892-93. In my humble opinion, what is really required is long possession as reputed owner. It is immaterial whether or not this is supplemented by an unregistered document. To hold otherwise would be to refuse relief to honest persons and to offer a premium to the suppression of unregistered documents Why should a man *without* a document be better off than one *with* a document? Again, why should a dishonest person who keeps back or denies his document be in a more favorable position than an honest person who candidly admits the existence of his document, and produces it before the Deputy Commissioner? If the document does not confer an absolute title, the possession under it becomes subordinate and permissive and the registry applied for will consequently be refused. If it conveys a complete and indefeasible title it imparts additional strength to a case which rests upon long possession It its genuineness is denied or is not established, there would still remain the fact of long possession which is the real basis of the application and which *per se* entitles the applicant to claim a transfer of registry That being so, the object of the restriction imposed by clause 10 is not apparent.

3. Several applications from persons with possession extending over such long periods as 20 and 30 years have had to be reluctantly rejected by me in consequence of the wording of clause 10, and of the ruling of Government based thereon. I beg, therefore, to recommend that the word "registered" be ordered to be inserted between "no" and "documents" As already observed, if a registered document exists in addition to the fact of possession, whether long or short, clause 8 would apply Where there is long possession *without a registered instrument*, clause 10 as amended would be applicable Notwithstanding the non-existence of an instrument or the existence of an unregistered instrument, an applicant ought to be able to succeed if he could substantiate his possession as reputed owner for 12 years or more coupled with the payment of Government revenue during that period

4. Under the law as it now stands, an application based upon long possession coupled with an unregistered document has to be thrown out as a matter of course and a reference to the Civil Court ordered. But whom is the applicant to sue and why? If a suit is instituted against the alienor or his legal representative, the plaintiff may not infrequently be met by the plea that his right to obtain a transfer of registry was never questioned or repudiated. In such cases, the suit must fail. And yet, the language of clause 10 shuts out a summary enquiry and makes a relegation to the Civil Court indispensable.

5. For the foregoing reasons, I beg to suggest that a modification of clause 10 be kindly ordered in the manner indicated above.

No. 3481-89—R. 1373, DATED. BANGALORE, 8TH OCTOBER 1895.

ORDER THEREON.—Ordered that the foregoing letter be communicated to the Deputy Commissioners of other Districts and the Superintendent, Revenue Survey, for favor of opinion.

No. 3625-32—R. 1433, DATED, MYSORE, 10TH OCTOBER 1895.

ORDER.—It was brought to notice, at the meeting of the Representative Assembly this year, that throughout the Province and especially in the Kolar District, there were several Bechirakh (depopulated and uncultivated) villages, and that the existing rules under which such villages are given out for cultivation on shraya tenure, did not afford sufficient concessions and hold out proper encouragement to induce capitalists to come forward to take them up. Deputy Commissioners of Districts are requested to investigate this subject thoroughly at an early date and submit a report to Government with a list of such villages describing what effect the rules have had in bringing such villages under occupancy, in what respect they have shown themselves to be defective, and how and in what particulars they may be improved.' It is needless to state that the subject is one of very great importance, and the Government rely upon Deputy Commissioners' giving their early and personal attention to it. The leading and representative raiyats may also be consulted if thereby any additional light is likely to be thrown on the subject-matter of investigation, and any useful suggestions made by them should be submitted for the consideration of Government.

Revenue Secretary.

ORDER THEREON.—Sanctioned. The assessment leviable on the land in question will be fixed under the coffee rules.

2. The darkhast in this case was made so far back as in August 1891. After some dilatory correspondence the Amildar submitted a report in November 1892 soliciting permission to sub-divide the land applied for and to sell it by auction. In reply the Deputy Commissioner issued an order in December 1892 enquiring what sort of kharab the land in question was, and observing that if it was gomal the prescribed statement should have been submitted. Instead of obeying this order the Amildar on his own responsibility caused the land to be sub-divided and sold by auction. The Deputy Commissioner to whom the sub-division and sale were reported in November 1893 did not take exception to the Amildar's proceedings which amounted to an utter disregard of the order which had been issued to him in December 1892. Though the sale was confirmed by the Deputy Commissioner in December 1893, in anticipation of Government sanction, the gomal statement was not submitted to Government until nearly two years after the delivery of possession to the auction purchaser. It is hoped that the Deputy Commissioner will take proper notice of the delay and irregularity pointed out above, and himself avoid such objectionable delays in the disposal of such papers in his office.

ORDER THEREON.—Sanctioned. The land in question will be subdivided into small and convenient blocks and disposed of under the darkhast rules, the assessment leviable thereon being fixed in communication with the Superintendent of Revenue Survey in Mysore.

2. Of the two darkhasts in question, one was presented in the year 1888 and the other in 1889. The correspondence between the Amildar and the Shekdar terminated so far back as in February 1890. The matter seems afterwards to have been entirely lost sight of in the Taluk Cutcherry until December 1893, when some further correspondence took place which ultimately resulted in the submission of this recommendation in September 1895, or about six and seven years, respectively, after the dates of the two applications mentioned above. It is hoped that the Deputy Commissioner will take proper notice of this long and apparently inexcusable delay. He is also requested to take such steps as would effectually prevent a recurrence of such delays in future. A thorough scrutiny of the list of pending darkhasts at the time of jamabandi cannot be too strongly insisted upon.

Correspondence ending with letter No. 304, dated 19th September 1895, from the Deputy Commissioner of the Tumkur District, submitting Holalkere Amildar Krishna Rao's explanation as to the circumstances under which the boundary marks on unoccupied lands in the Hasigehobli village of the Kunigal Taluk fell into such a state of disrepair as to necessitate a larger expenditure being now incurred than that allowed by the rules.

No. 3562-70—R. 1422, DATED, BANGALORE, 13TH OCTOBER 1895.

ORDER THEREON.—The explanation is unsatisfactory, and Amildar Krishna Rao has rendered himself liable to be censured for his neglect of this important duty. The proper maintenance of boundary marks is an important work to which particular attention should be paid by Amildars. The Jamabandi Officers must not fail to inspect a fair proportion of these boundary marks and to notice their condition in their reports. The Deputy Commissioners are also expected to exercise timely and efficient supervision in the maintenance of the field boundary marks.

READ THE FOLLOWING PAPERS:—

Extract from the Proceedings of the Dasara Representative Assembly held in October 1892.

Subject No. 71.—Sale of Minor Forest Produce.

Summary of discussion.—Minor Forest Produce, such as Basari Naru, Bendé Naru, Bikké Naru, Byala and Boré fruit, should be allowed to be taken away free of charge. The collection of these items was sold this year. The revenue derived is insignificant, while the inconvenience caused to poor people who used to supplement their means of livelihood by collecting and selling these products is very great. Mr. Srinivasa Rao and other members supported the proposal.

Dewan's reply.—The sale was only an experimental one. If found to be not profitable, it will be given up. Unless some restriction is placed upon people taking away such forest produce, the sources of supply would soon be exhausted.

2. Letter No. 2183—J. 174, dated 31st July 1893, from the Chief Secretary to the Dewan of Mysore, to the Inspector General of Forests in Mysore.

I am directed to invite your attention to Subject No. 71 discussed at the Representative Assembly Meeting held at Mysore in October 1892, and with reference to the Dewan's remarks therein to request that you will, after consultation with the Deputy Commissioners on the subject, submit a report furnishing statistics of revenue during the past three years.

3. Letter No. 1566—115, dated the 24th November 1893, from the Inspector General of Forests in Mysore, to the Chief Secretary, with enclosures.

With reference to your letter No. 2183—J. 174, dated 31st July last, and reminder No. 4584—J. 492, dated 11th September, calling for a report on the Subject No. 71 discussed at the meeting of the Representative Assembly held in October 1892 as regards Bendé, Basari and Bikké Naru, Byala and Bore fruits, I have the honor to state as follows.

2. As requested in your letter I consulted the Deputy Commissioners. The Deputy Commissioner and the District Forest Officer of the Kadur District whence the representation was made, state that in the several Taluks of the District, *viz.*, Chikmagalur, Mudgere, Koppa and Kadur, no such items as named above were sold during the last three years; while in the Tarikere Taluk only Bende-naru and Byaladahannu were with 23 other *minor forest products* sold during 1892-93 and 1893-94 for paltry sums of Rs. 5 and 4 respectively. They are therefore of opinion that the sale of such small and unremunerative items may be dispensed with. The Deputy Commissioner, Tumkur, reports that the items in question were never sold in his District. In Chitaldrug, these products grow in very small quantities and the Deputy Commissioner is of opinion that the people may be allowed to take them free, as hitherto, the same not being included in the sales of *minor forest products*; which the Deputy Commissioner, Mysore, also reports to be the practice in his District. The Deputy Commissioner, Kolar, expresses that the preparation of fibres would entail felling of trees which should be preserved in a forest point of view and suggests that the concession to remove wild fruits be confined to District Forests, in which the Deputy Commissioner, Hassan, also concurs, except where, such as Byala and custard apple are in abundance, and exported to large centres of population, while the Forest Officer, Bangalore District, is conflicting in his statement which the Deputy Commissioner forwards without his own observations. Mr. Abdul Rahman, Deputy Commissioner, Shimoga, states that Basari Naru and Bore fruit were not sold in his District; but that Bende Naru and Byala fruit realized Rs. 45-7-0, and Rs. 10-8-0, respectively, for the past three years from both State and District Forests. In the State Forests of this District, a duty of 2 annas is levied per head-load of Bende Naru. Mr. Abdul Rahman proposes to give up the sale of insignificant items and that it is objectionable to allow purchasers of such small items and their coolies to roam about in State Forests. As regards Bikké shrub, I beg to state that its bark is used for tanning purposes in some places. I have in consequence as a tentative measure fixed a duty of Rs. 8 per cart-load of bark and Rs. 2 extra for the barked wood.

3. I am of opinion that in District Forests such items as fibres, wood-apple and custard-apple should be sold and the sale of other insignificant items be given up; and I concur in Mr. Abdul Rahman's view that purchasers of insignificant products and their coolies should not be allowed free access to the State Forests.

4. As for the statistics of revenue from the items in question, only one District, *viz.*, Shimoga, has furnished regular statements which are enclosed in original.

4. Government Proceedings No. 9756—R. 1465, dated 13th December 1894.

In the letter read above, the Inspector General states that in District Forests such items as fibres, wood-apple and custard-apple should be sold and the sale of other insignificant items be given up, and that purchasers of insignificant products and their coolies should not be allowed free access to the State Forests. Mr. Ricketts is requested to issue the needful instructions accordingly.

5. Memo No. 2921—Ft. 162, dated the 6th September 1895, from the Revenue Secretary to the Government of Mysore, to the Deputy Commissioner, Shimoga District.

The attention of the Deputy Commissioner, Shimoga District, is drawn to Subject No. 128* of the Dasara Representative Assembly Proceedings of 1894 and he is requested to report, through the Inspector General of Forests, whether the practice of selling these fibres has been abolished.

*Disposal of Bendé and Thadasalu fibres, &c.

6. Letter No. 712—68, dated the 14th September 1895, from the Inspector General of Forests, to the Revenue Secretary.

With reference to your Official Memo No. 2921—Ft. 162, dated 6th instant, to the address of the Deputy Commissioner, Shimoga, enquiring whether the practice of selling Bende and Thadasalu fibres, &c., has been abolished, I have the honor to invite attention to my letter No. 1566—115, dated 24th November 1893, and Government Proceedings thereon No. 9756—R. 1465, dated 13th December 1894, assenting to my proposal for the continuance of the sale of fibres and other articles of minor produce in District Forests. In accordance with Government orders, I have issued circular instructions, copy of which is enclosed. It will thus be seen that the subject brought before the meeting of 1894 was in fact the one that had been discussed two years back, i. e., 1892, and finally disposed of in the Government Proceedings above quoted. I am still of opinion that fibre as one of the saleable items of Minor Forest Produce annually should be maintained; and what is of more consequence than Bende is Thadasalu, a classified tree of the

2nd class, which yields not only fibre and fruit, but also valuable wood used for buildings and carts. Under the circumstances the representation, except as regards "Malavé creepers," can hardly be entertained.

Enclosure.

Circular No. 2340-7—73, dated 19th January 1895, from the Inspector General of Forests in Mysore, to the Deputy Commissioners of Districts.

With reference to this office Circular No. 474-81—10, dated 14th August 1893, and the Deputy Commissioners' reply thereto, the Inspector General of Forests, under the orders of Government conveyed in Proceedings No. 9756—R. 1465, dated 13th ultimo, has the honor to direct that in District Forests such items as fibres, wood-apple and custard-apple should be sold and the sale of other insignificant items of edible wild fruits and berries exclusive of tamarind, be given up.

2. The Inspector General of Forests further directs that the sale of insignificant items of Minor Forest Produce in a State Forest be likewise given up so as to exclude the would-be purchasers of such petty items and their coolies from the State Forest.

A list of items thus given up both in the District and State Forests should be forwarded.

7. Letter No. 941—111, dated the 4th October 1895, from the Inspector General of Forests, to the Revenue Secretary to the Government of Mysore.

In continuation of my letter No. 712—68, dated 14th ultimo, I have the honor to forward copy of Shimoga Deputy Commissioner's docket No. 697—37, dated 14th idem, from which I understand that, with the exception of Bendé Naru for which there is a great demand from timber floaters, Thadasalu and Malve fibres are removed from the list of Minor Forest Produce sold annually. I have, however, requested the Deputy Commissioner to prohibit the felling of Thadasalu tree for purpose of fibre for the reasons assigned in my letter above quoted.

Enclosure.

Revenue Secretary's official Memo No. 2921—Ft. 162, dated 6th instant, requesting to state whether the sale of the Bendé and Thadasalu fibres have been abolished.

With reference to the above, has the honor to state that with the exception of Bendé, Thadasalu and Malavé fibres have been omitted from the list of Minor Forest Produce sold annually.

The demand for Bende fibres being very great for floating down timber to Her Majesty's Territories in the Tunga Bhadra river, the fibre in question has been retained in the list of Minor Forest Produce and sold annually.

No. 4046-54—Ft. 240, DATED BANGALORE, 22ND OCTOBER 1895.

ORDER THEREON.—Recorded.

2. The Government approve of the instructions issued by Mr. Ricketts. A list of the insignificant items of Minor Forest Produce, the sale of which has been given up, with a view to prevent purchasers and their agents or servants from having free access to Government Forests and destroying or damaging trees therein, should be submitted for the information of Government.

Letter No. 972—113, dated the 9th October 1895, from the Inspector General of Forests in Mysore.

With reference to Government Proceedings No. 6892-3—R. 1002, dated 31st October 1894, I have the honor to submit for perusal and obliging return the statement of transactions of the experimental Depôt at Anavatti for the official year 1894-95, received with the Shimoga District Forest Officer's docket No 196, dated 24th September last, requesting sanction to the permanent establishment of the Depôt. As will be seen, the receipts amount to Rs. 1,315 and charges to Rs. 786 inclusive of the cost of the establishment (a Mutsaddi on Rs. 10 and a peon on Rs. 5) leaving a surplus of Rs. 529 in favor of the Depôt. At present the Depôt has not only been insufficiently stocked, but wood has not been sent in sufficient quantities during the months that there is the greatest demand for the same. These draw-backs being rectified, the Depôt should pay even better than it does now. Necessary steps have been taken in that direction. As the Depôt requires to be kept up permanently to meet demands both from in and outside the Province on the Sorab frontier, I beg that sanction be accorded to the permanent entertainment, from 1st November next, of the present establishment of a Mutsaddi on Rs. 10 and a peon on Rs. 5, hitherto maintained from Working Charges and also to the transfer of Rs. 120 from A. I. *a.* "Timber" to B. I. *c.* "Subordinate and Depôt establishment" in the Shimoga District to meet the cost of the proposed permanent establishment.

No. 3879-81—Ft. 235, DATED, BANGALORE, 22ND OCTOBER 1895.

ORDER THEREON.—Under the circumstances represented in the foregoing letter, the Government are pleased to sanction the proposal of the Inspector General. The Depôt at Anavatti and its establishment will, as recommended, be maintained permanently from 1st November 1895 and the cost of the establishment will be provided for as suggested by Mr. Ricketts.

2. Steps should be taken to see that the Depôt is stocked with wood in sufficient quantities to meet the growing demand.

READ AGAIN :—

Government Proceedings No. 22646-7—R. F. 220-92, dated the 10th June 1895.

READ THE FOLLOWING PAPERS :—

Letter No. 87—12, dated the 23rd July 1895, from the Inspector General of Forests in Mysore to the Revenue Secretary.

With reference to para 3 of Government Proceedings No. 22646-7—R. F. 220-92, dated 10th June last, I have the honor to state that I have called for a detailed report from the District Forest Officer, Mysore, as regards the working plan, &c., for submission to Government. In regard to the enquiry as to whether it would not be far cheaper to permit consumers themselves to remove the dry timber from the jungles, I beg to say it can only be cheaper where the consumers are raiyats who do not take their own labor and carting into account; but there will be only a few of them that would offer to buy and that too to a limited extent. The consumers are generally timber traders who take into account every rupee of their expenditure and interest on the capital they lay out. Hence they offer as low rates as possible and further reserve to themselves the right of selection which would result in the rejection of several logs and pieces still of a saleable character. Further, they would take what could be removed with ease and from localities easily accessible to carts. Thus the measure will not tend to the thorough clearance of the dead stock from the forest while the Department will yet have to collect rejected logs and pieces of value to be found at long intervals and at greater cost. I am therefore of opinion that all efficient dry or dead timber of reserved kinds in the several State Forests might be advantageously removed by Departmental agency, supplemented by a small temporary establishment wherever required, employing elephants for extraction of logs from different places inaccessible to carts. I beg to add that carting is a cheaper agency than elephant-dragging so far as it has proved, yet the latter agency is necessary, and will be employed for the removal of logs up to cart-tracks. There will not therefore be any material diminution in cost of carriage.

2. In respect to the reduction of the provision under I. (*b*) "Firewood and charcoal," from Rs. 22,100 to Rs. 7,520, I beg to submit that the charges include the cost of watching establishment of Fuel Reserves in the several Districts which are worked on licenses, the fees levied being credited under II. (*b*) "Firewood and charcoal." If on the above account a sum of Rs. 3,000 be transferred from I. (*b*) to II. (*b*) the net estimated charges under I. (*b*) will be Rs. 19,000 as against the estimated receipts of Rs. 25,000 for the current official year. With reference to the remark that the excess income from the above source is more problematical than that from timber, I beg to explain that Forest Revenue chiefly depends upon the amount of collection and sales, and that the transactions partake of a commercial nature in having to withhold the produce when proper price is not offered and sell at times more than the budgetted quantity to meet the demand, the excess being met from additional collection or stock on hand from previous year. This is particularly the case with firewood which is one of the necessaries of life and on which our fee or profit is small, yet small as it is, it is sure, and every rupee of expenditure under this head must represent more than such rupee on the credit side. Excepting in Bangalore, Kolar, Tumkur and Hassan Districts where the Department collects and sells firewood owing to local representations, the estimated receipts under I. (*b*) in the other Districts are nil. In my opinion the excess income which is estimated carefully may be realized and even more by sale of larger quantities of both fuel and charcoal for which there is a steady demand at the depôts. The conversion of charcoal in localities not reached by firewood-mongers is the best mode of utilizing the dead and fallen wood otherwise going to decay, and the operation has been commenced in certain State Forests of the Bangalore District. For the realization of increased revenue which Government have been pleased to allow to stand additional funds are required for the Bangalore and Kolar Districts, and in consequence I solicit sanction to a further allotment of Rs. 11,000 (Rs. 4,000 for Bangalore District and Rs. 7,000 for Kolar District) the same being appropriated from the provision of Rs. 38,500 sanctioned under VII. (*b*) "Buildings" as the erection of a new Sandal Kothi at Hassan for which Rs. 14,300 has been provided, is rendered unnecessary by Government Proceedings No. 24975-7—R. 3703, dated 28th June last.

Government Proceedings No. 1530—R. F. 220-92, dated the 5th August 1895.

In para 3 of the Proceedings read above, an additional provision of Rs. 10,000 under I. (*a*) "Timber" (to be spent on the exploitation of dead or dry timber lying waste on hill slopes and in nallas) was sanctioned subject to the submission of a detailed report as to (1) the working plan, (2) the localities in which the operations are to be carried on, and (3) the special arrangements regarding control and supervision. The Inspector General's opinion was also called for as to whether it would not be far cheaper to permit consumers themselves to remove the timber from the jungles.

2. The Inspector General reports that he has called for a detailed report as to the working plans, &c., and, he is of opinion that the consumers being generally of the timber-trading class, they would offer as low rates as possible and select good timber rejecting the rest. It is not clear whether this opinion is based upon any facts brought to notice, or is only a surmise, and whether any tenders have been received which would admit of a correct opinion being formed. It seems desirable that before coming to a decision, the experiment should be tried in certain selected localities.

3. As to Mr. Ricketts' apprehension that the consumers would take what could be easily removed, so that there would not be a thorough clearance of the dead stock, it may be observed that it may be provided against by a special contract imposing the necessary conditions and restrictions.

4. If proper tenders should not be received, then, the Inspector General's proposal to carry out the work by Departmental agency would be the next best arrangement which, however, should not be carried out before the details of a working plan are satisfactorily settled.

5. With reference to the reduction of the provision under I. (*b*) "Disbursements," the Inspector General states that the sum of Rs. 22,100 which he had proposed, included the charges of the watching establishment maintained for the protection of Fuel Reserves and that if, on this account, a sum of Rs. 3,000 is transferred to II. (*b*), the net charge under I. (*b*) would be Rs. 19,000 only. The details of the watching establishment have not been given and must be furnished to enable the Government to pass its final orders.

6. The Inspector General further states that in order to realize the increased revenue provided in the Budget, an additional allotment of Rs. 11,000 is required for the Bangalore and Kolar Districts. This amount he proposes, to appropriate from the provision of Rs. 38,500 sanctioned under VII. (*b*) "Buildings." Orders will be passed on this proposal after the receipt of a reappropriation statement in proper form, with full details as to the plan of operations and as to actual requirements.

Letter No. 393—41, dated the 27th August 1895, from the Inspector General of Forests in Mysore.

I have the honor to acknowledge the receipt of Government Proceedings No. 1530—R. F. 220-92, dated 5th instant, and with reference to first four paragraphs thereof, to report more fully on the subject of dry timber collection in the Mysore District.

2. The Heggaddevankoté Sub-Division Forest Officer brought to notice in his diary for January 1895, that a lot of dry timber was to be found in the Bégur State Forest. In February last, the Sub-Division Officer reported that not only in Bégur Forest but also in Ainurmarigudi, Kakankota and Metikuppé State Forests he observed lots of dead trees of reserved kinds standing or fallen, that owing to their difficult situations they were not hitherto exploited, and that in all *100,000 cubic feet might be obtained therefrom. With reference to my remarks on the diary, steps were taken to collect 15,000 cubic feet against the floating season which was approaching. In addition to the above the District Forest Officer proposed to collect in the current official year 35,000 cubic feet and to restrict green wood felling to only 25,000 cubic feet to meet the possible requirements of the Palace and other Public Departments. The proposal for minimising green wood felling under the circumstances had my entire concurrence as giving temporary relief to the Forest; but as regards dry timber which should be chiefly sold in all our depôts till we clear away at least a considerable portion of the stock, I proposed a larger collection and the Government were pleased to approve and to allot an additional sum of Rs. 10,000 with certain observations in favor of the disposal of all dry timber to intending wholesale purchasers from the Forests direct. With reference to these observations, I explained briefly how the same would not tend to fetch proper value for our timber (only 2¼ annas per cubic foot having been offered for teak in the Barambadi State Forest, Gundal Taluk, by a timber trader applying for 20,000 cubic feet) and to the thorough clearance of our dead stock. This is not a surmise but what can be anticipated from the nature of the business that (1) the purchaser would have in some places to employ elephants, (2) lay out cart-tracks and construct temporary bridges over nallas for the carriage of timber which imply a certain amount of expenditure, and (3) competition for local labor of Kurubas when taken away for forest works. These considerations would induce a would-be purchaser to ask for liberal terms both in respect to price and time, the latter of which especially it will be undesirable to grant. This is one phase of the question. Another arrangement which would be acceptable to all parties would be for the Forest Department to collect logs at convenient centres wherefrom the transport by carts would be easy and then to call for tenders. This measure would doubtless tend to secure better terms though possibly not with the same margin of profit as is cleared at depôt sales. A portion of our collections might however be dealt with in the above manner in compliance with the wishes of Government and would not be open to the objection of allowing tenderers to enter State Forests.

	C. Ft.
* Ainurmarigudi State Forest ...	48,000
Begur ditto ...	32,000
Kakankota ditto ...	18,000
Metikuppe ditto ...	2,000
Total ...	100,000

3. As I have stated above, arrangements have been set on foot from last year as an ordinary work for the collection of dry timber for supplying depôts. This had to be ordered when the Kurubas had no other work to do and to reduce cost of transport by means of floating during the floods of the Kabani river. If, on further consideration, Government direct that dry timber collection should be absolutely stopped the orders will be carried out; but as time has far advanced for felling green timber which should have been nearly completed by this time, I apprehend that our depôts may not receive their usual supply of wood for sale this year. I am anxious that the collection and sale of dry timber at our depôts may be tried this year and necessary data collected for future guidance, practice of selling timber direct from the State Forests in the manner indicated in the Government Proceedings not being in vogue hitherto and the Department not being in a position in the absence of data to effectually deal with the rates that may be tendered.

4. The Heggaddevankoté Sub-Division Forest Officer is in immediate charge of dry timber collection, assisted by Rangers and Foresters of respective State Forests. The Metikuppé Forester has been specially deputed with an allowance of Rs. 5 per mensem and the watchers who may be employed on this special and arduous work are recommended to be remunerated with Rs. 3 each out of working charges. This I have approved subject to sanction of Government.

5. The selection and preparation which require special care will be done by the Department, and carting through contractors, elephants being employed wherever required. The working plan called for by Government will be submitted as soon as it is received. The general feature of this working plan is the collection in a systematic manner of—cubic feet of marketable dry or dead timber standing or fallen in the four State Forests of the Heggaddevankote Sub-Division and removal of same to depôts and floating stations, during the current official year at the usual or slightly higher rates. Pending further orders of Government on the subject I have been compelled to direct the District Forest officer to push on with the work as floating cannot be delayed at the present season; nor is it desirable to subject such dead wood as can be brought out of the Forests before the next fire season commences, to the risk of destruction or deterioration by forest fires.

6. It is apprehended that with the difficulties of carting out the dead wood in certain forests that not so much dead wood as was estimated for will be removed this year, and the District Forest Officer will be strictly instructed that as soon as the operations of the year are closed and even earlier he is to call for tenders for the next year on the lines indicated by Government with names of forests, approximate quantity of dead timber, distances, &c.

7. A separate communication will be addressed with reference to paras 5 and 6 of the proceedings under reply.

Government Proceedings No. 3243—Ft. 189, dated 14th September 1895.

In para 3 of his letter read above the Inspector General states that the collection and sale of dry timber at the depôts may be tried this year and necessary data collected for future guidance, as the practice of selling timber direct from the State Forests has not been in vogue hitherto, and the Department is not therefore in a position to effectually deal with the rates that may be tendered. The Government have no objection to the above proposal.

2. The action of the Inspector General of Forests sanctioning extra allowances to Rangers and Foresters, &c., employed in the collection of dry timber is approved subject to re-consideration of the system from next year.

3. The steps taken by Mr. Ricketts to push on with the work of collection in anticipation of Government orders is also approved.

4. The District Forest Officer should be instructed to call for tenders as soon as the operations of the year are closed and even earlier if possible on the lines indicated by Government in Proceedings No. 1530—R F. 220-92, dated 5th August 1895, with names of forests, approximate quantity of timber, distances, &c.

5. The working plan promised in para 5 and the further report promised in para 7 of Mr. Ricketts' letter under reference are awaited.

Letter No. 1125—128, dated the 18th October 1895, from the Inspector General of Forests in Mysore.

Referring to paras 5 and 6 of Government Proceedings No. 1530—R. F. 220-92, dated 5th August 1895, I have the honor to submit a list of guards employed for the protection of Fuel Reserves in the Bangalore, Kadur and Chitaldrug Districts as well as a re-appropriation statement in due form for Rs. 9,150 required to meet the charges under I, (b) "Firewood and charcoal" in the Bangalore and Kolar Districts during the current official year. The actual requirements of each District are set out in detail on the back of the re-appropriation statement. The reason for asking Rs. 2,000 less is owing to the abolition of the depôt at Goribidnur as reported in my letter No. 939—109, dated 4th instant.
